

Diversified Core Values:

Giving guidance to our actions and defining who we are.

Customer

Integrity

Risk
Reduction

Innovation

Profitability

We are CUSTOMER Focused:

We seek to exceed customer expectations by providing solutions that improve their drilling, completions, and production economics.

We conduct our business with INTEGRITY:

We believe in doing the right thing and conducting our business with honor, transparency and professionalism.

We are committed to REDUCING RISK:

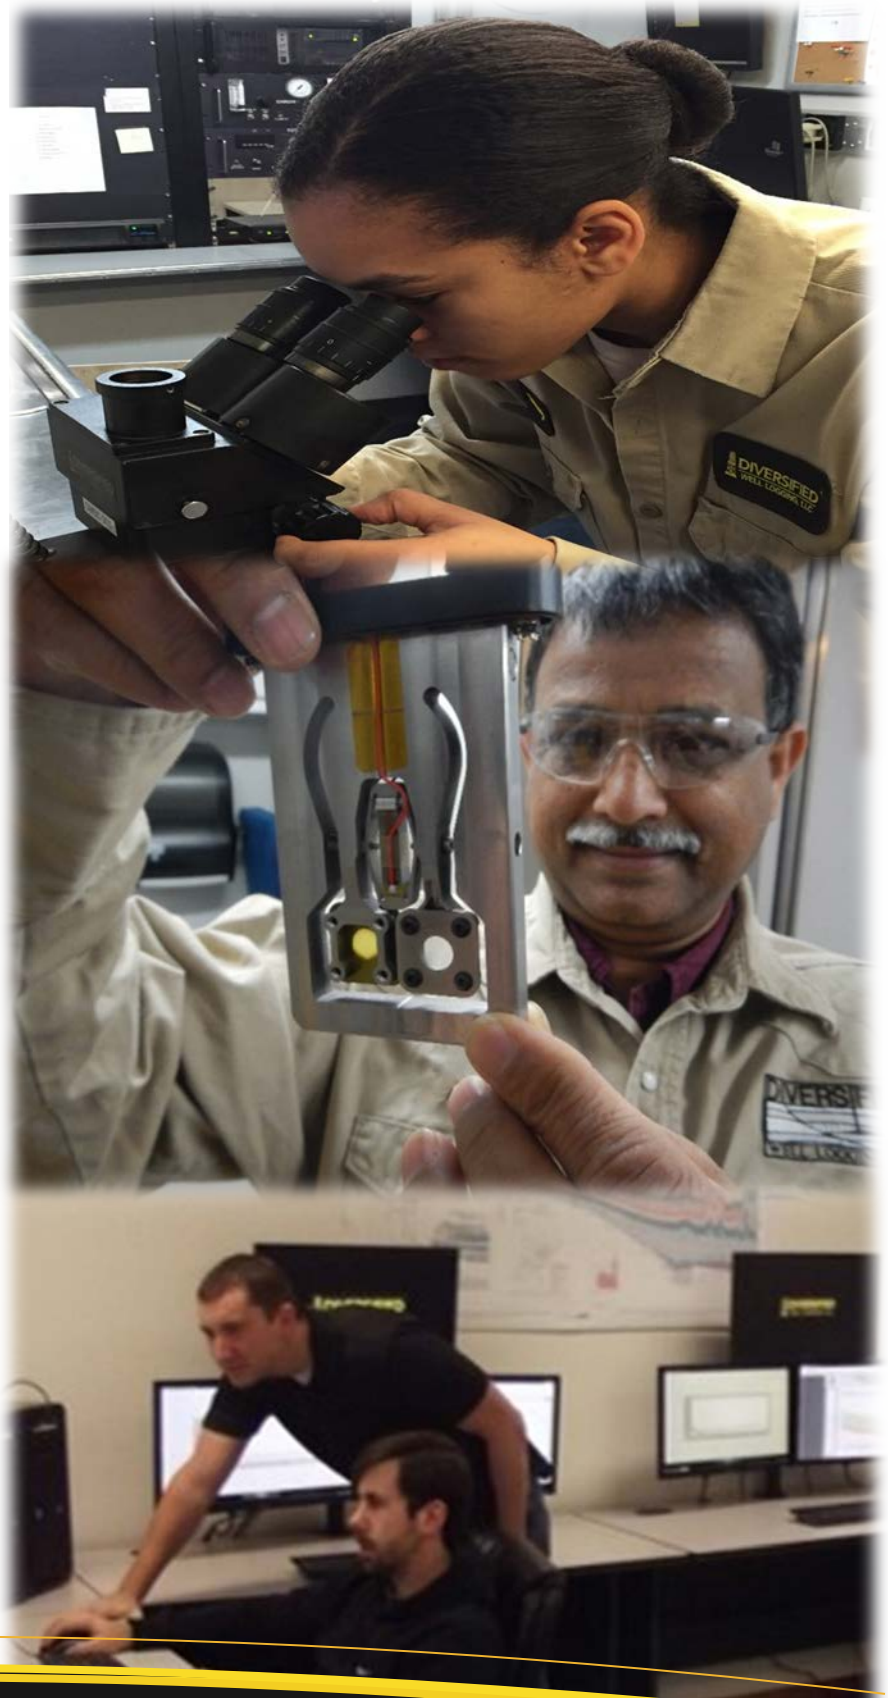

The cornerstones of risk reduction are Safety, Quality and Learning: a safe workplace that is free from accidents, drugs, and alcohol; being process focused and executing right, the first time, every time; organizational learning by updating process and communicating incidents company wide.

We are INNOVATIVE in design and service delivery:

We know that our industry is always changing, we embrace those changes and technologies even when they don't come from within.

We are a PROFITABLE organization:

We strive for profitability at every level, by project, by area, and for the company this produces financial rewards for our employees and shareholders. Profitability provides the freedom to innovate for the benefit of our customers.
