

## HSE and Quality Assurance System

Diversified Well Logging management strongly believes that mud logging is about service and communication. DWL commits that all field and support personnel will ensure that this remains the priority. Also, DWL management recognizes that its own field engineers operate in remote and isolated locations far from family and home, and management commits to support them in the same manner as the customer.

### **DIVERSIFIED WELL LOGGING, LLC. SAFETY STATISTICS AND 2017 GOALS**

	2013	2014	2015	2016	2017 Goals
Total man-hours worked	896,103	605,664	555,904	333,683	N/A
Total # of Recordable Cases	6	2	2	0	0
Total Recordable Incident Rate	1.34	0.66	0.72	0.00	0.00
Total Lost Time Cases	1	1	1	0	0
Total Lost Time Days	31	31	31	0	0
Total L/T Incident Rate	0.22	0.33	0.36	0	0
Total # Restricted Days	174	137	123	0	0
Total # of Fatalities	0	1	0	0	0
EMR	0.73	0.78	0.99	0.90	0.89
Avg. # of Employees	287	307	246	161	N/A

In 2016 DWL achieved a TRIR of 0.00. This was achieved through focus and the commitment of our Employees. Though we are very happy with this number we still had four first aid incidents. All first aids were in the category of slips trips and falls (STF). STF are also our highest observed at risk category in our BBS system. STF will be our focus in 2017.

- Continue to drive participation in the Behavior Based Safety program
- Review and update JSA's
- Focus on Slips Trips and Falls as part of "Walk the Path to Safety"
- Publish 2017 Safety Management System (SMS)
- Focus on Hours of Service for DOT Drivers and Managers
- Implement Electronic DOT Drivers logs by end of Q3 2017

The challenge for 2017 is to continue the growth of our safety culture and to strive to attain an incident free work environment. Thanks to all of you who have been actively participating in the safety program and helping to make Diversified Well Logging one of the safest companies in the mud logging industry.
